

General Information for Firetect, Inc.

Manufacturers & Applicators of Flame Retardant Saturants and Coatings

On- or Off-Site Theatrical Drapery Cleaning, Repair & Replacement

Executive Summary

Firetect, Inc. is a flame and fire-retardant company with over five decades of experience. Firetect manufactures quality flameproof products, offers on and off-site application services to our clients, provides quality cleaning and repair services for theatrical draperies, soft goods, window and wall coverings and other decorative materials. Firetect strives to uphold their reputation as the premier manufacturer of the highest quality fireproofing products in the industry. We accomplish this by listening to the clients' needs, understanding their production process, applying the correct fire codes and supporting them with the appropriate testing. Our ASTM E84 Class A and B products for wood and fabric, and application services are available with the help of our Distributors and Certified Applicators across the United States, Canada and Asia. Our customized processes, application and training programs offer innovative support and fire code compliance to our clients who want to grow with a stable, green compliant company who values honesty and integrity with superior customer support and life enhancing flame-retardant products that are backed with strong, proven testing.
